

Community Respect

Good Neighbor Agreements

- ✓ ____ Vendors are not allowed to smoke in their booth or throughout the lot; designated smoking areas will likely be available, but use best discretion and if in question, ask others around you. MARIJUANA or ANY ILLEGAL PUBLICLY USED SUBSTANCE is not permitted on the property. The licenses and permits carried can be taken from the entire market if this policy is not respected. If in any doubt as to whether something is permitted, just ask!
- ✓ ____ Each Vendor is responsible for making sure their area is picked up completely during and after the market, leaving nothing behind. The dumpster & recycling container in the parking lot may be used for small garbage.
- ✓ ____ Discuss with market manager and neighboring vendors prior to using any incense, sprays, or strong odor products in your area.
- ✓ ____ Conflict and challenging situations will arise. We can work it out! We hope all are mindful about how our needs, desires, choices, and actions may affect others around us. Address concerns directly with the market manager at any time. If consulting with a fellow vendor regarding situations or conflict, be mindful of what the intentions to do so are.... Are you hoping to have someone side with your feelings, are you hoping to receive help in finding a solution, or simply venting the feelings out to let it go and carry on? Though challenges will arise, we remain committed to a positive and welcoming environment for all who are there.
